

## ■ StudyTechie Deployment Checklist

- Verify project builds successfully (web, mobile, admin).
- Ensure environment variables and API keys are set.
- Run tests and lint checks.
- Prepare Play Store / App Store metadata (screenshots, descriptions, privacy policy).
- Update support contact email to [dineshgopisunkara058@gmail.com](mailto:dineshgopisunkara058@gmail.com).
- Upload build to Google Play Console / Apple App Store.
- Perform post-deployment QA on live environment.
